Which do you want your business to be?

The vision depends on the mission

Does it actually look more like this?

How does that work?

- Identify the mission – What style are you envisioning?
- Analyze the business and the team
 - Strengths, talents, unique qualities
 - Shortcomings, weaknesses, needs
 - Gap analysis
- Implementation
 - SOPs
 - When to hire vs. outsourcing
 - How to use technology properly

What to take away?

1. Define your purpose
2. Honest awareness of your business and team
3. When to ask for help

Freedom to Thrive

Transform your business into an efficient machine that you can rely on and not let it run your life!
