Will Hill consults

Quick Facts

Owner, Will Hill Consults LLC

22+ years in tax & accounting

2021 Accounting Today “Top 100 Most Influential People”

Lives in Tennessee

Married and has 3 crazy kids!

Newton's 3 Laws of Motion

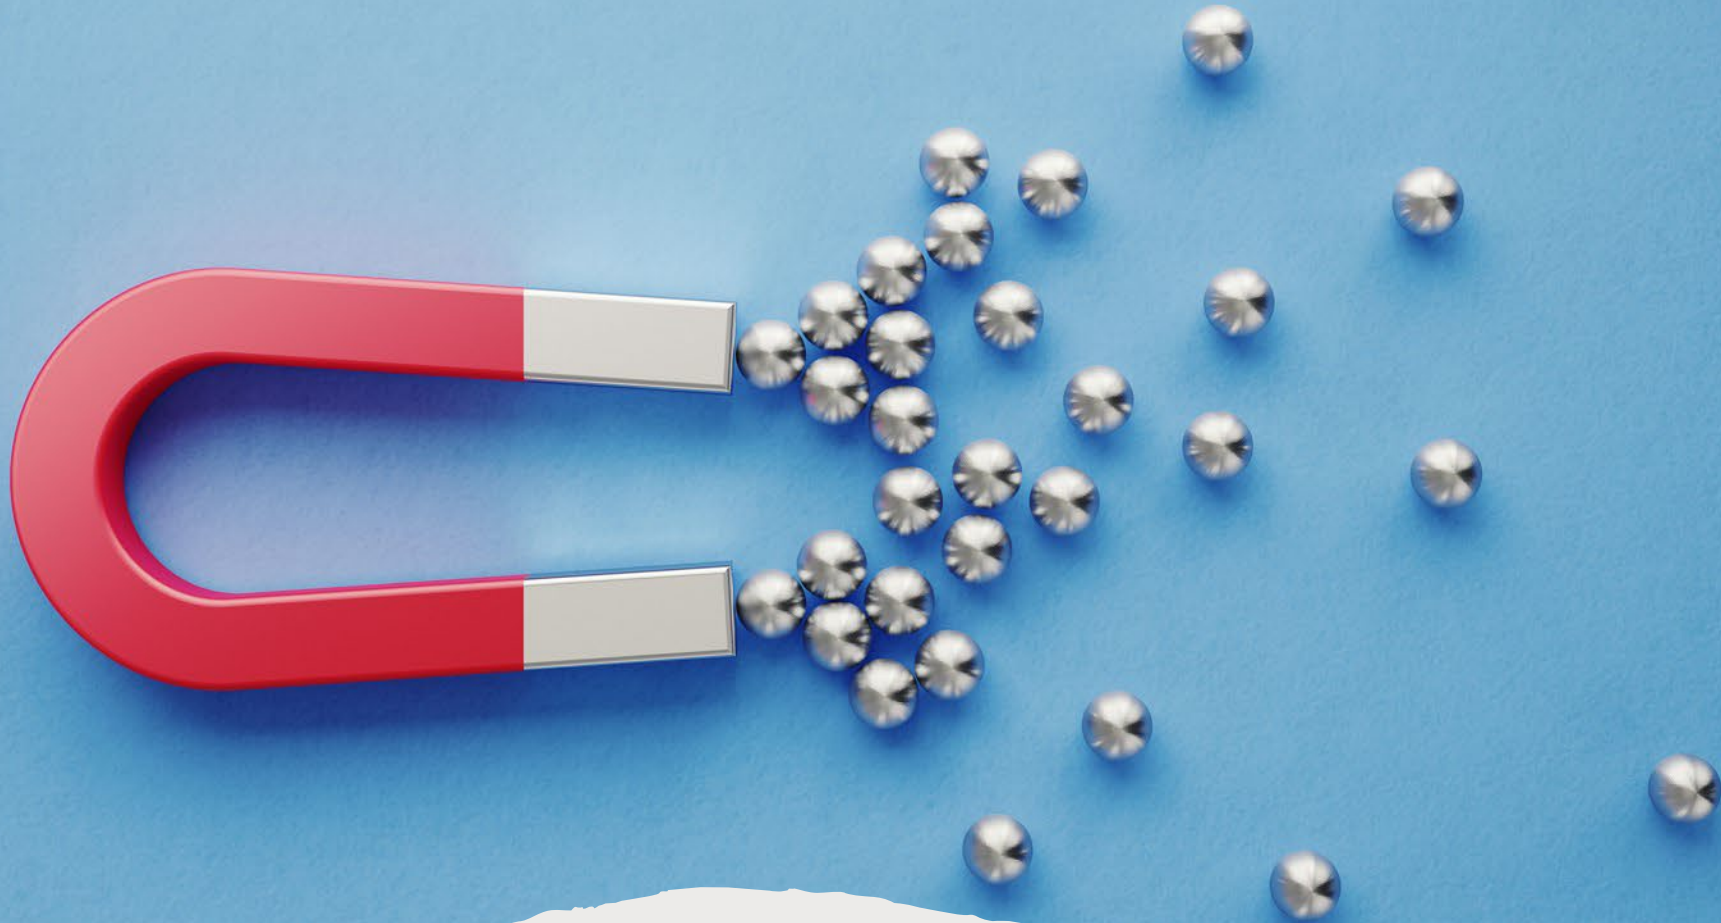

- Rest and motion
- Acceleration
- Equal and opposite reaction
- Mixing laws
- Making it happen

Objects at rest will stay at rest

Objects in motion stay in motion

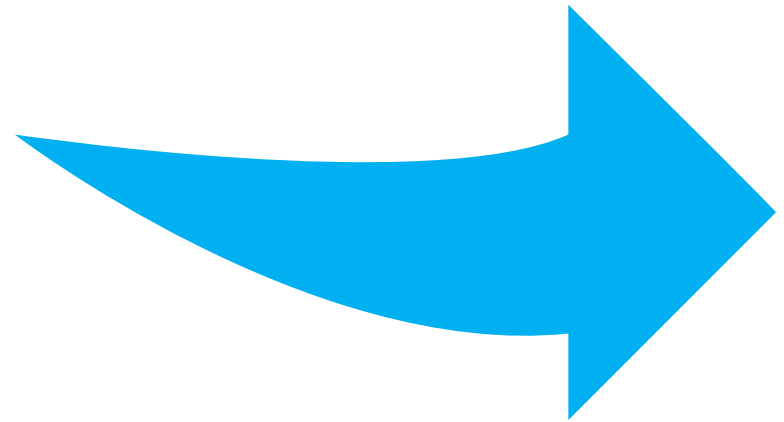

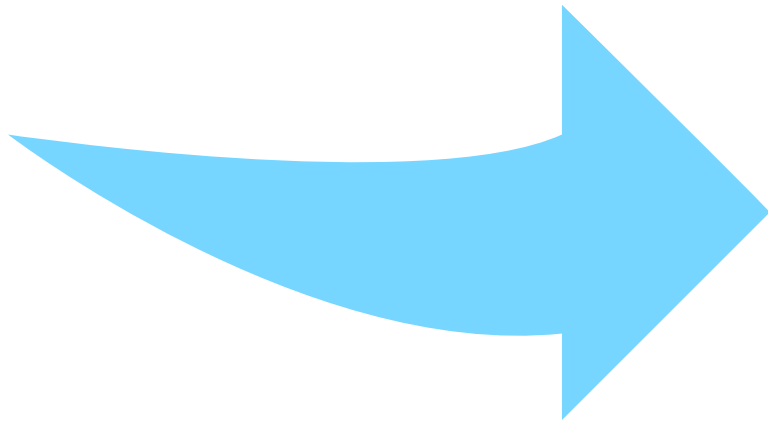

Unless acted upon by a greater force

Find the inertia

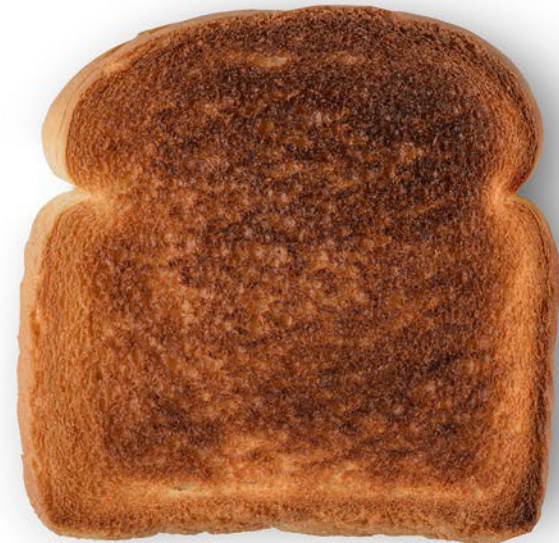

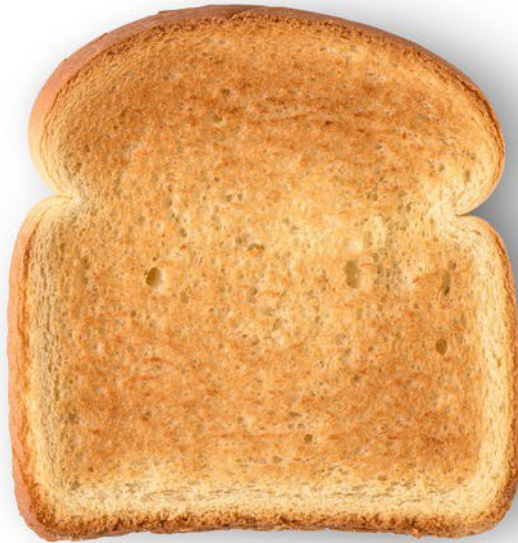

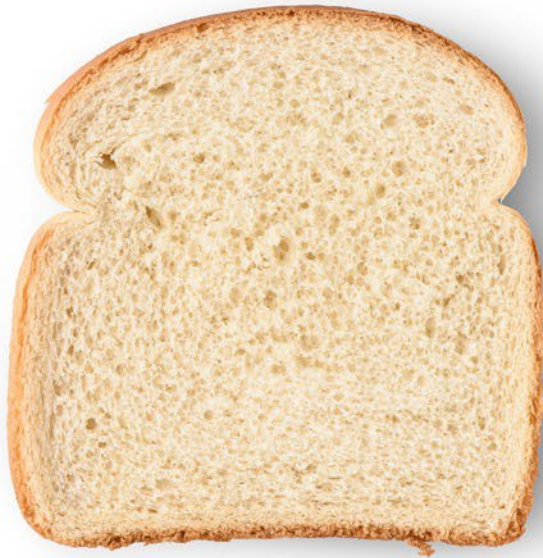

Will Hill
consults

Acceleration comes from force (Newtons)

The amount of force is directly related to the rate of acceleration

$$F = MA$$

The secret is in the mix:

Deliverer
Volume
Frequency
Control

Equal and opposite reaction

Equal and opposite
reaction: So what?

A top-down view of a wooden palette with several dollops of thick, vibrant paint. The colors include purple, blue, green, yellow, and red. Several paintbrushes with wooden handles and silver ferrules are scattered across the palette, some with paint on their bristles. The text "Newton's Laws mix" is overlaid in white in the center.

Newton's Laws mix

Tips to Making it Happen!

- Align to firm purpose
- Personal motivation matters
- Success over ownership

Newton's Laws of Motion
– Their Real Application to
Executing Through Change
in Your Firm
